

THE WINE PORTFOLIO

NEW ZEALAND'S FINEST

# MILL ROAD

---

## Hawkes Bay Rose 2016

The grapes were machine harvested and transported to our Riverview winery where they were crushed to stainless steel tanks. After a few hours, juice was drained off to other stainless steel tanks for fermentation. A variety of yeasts were used but primarily QA23 and X16. The resulting wines were transported to our Katikati winery where they were finished and bottled over a number of bottling.

### Wine Analysis:

Composition Pinot Noir 61%, Malbec 36%
